Master Checklist

All ten TBCC variation checklists combined in a single page. Tick a box to toggle owned/missing; ticking an unconfirmed entry promotes it to confirmed. Edits are auto-saved in this browser under one shared key, separate from each individual checklist's save.

Note: the totals above the list exclude the two "by Label Type" sections, since those entries are re-groupings of variations already counted in the Beatles/Apple LP and 45 checklists. You can still check them off – they just don't double-count toward the totals.

Tip: click the box to toggle owned/missing. For unconfirmed entries, ticking the box marks them as "confirmed" – they turn blue so newly verified ones stand out. Click any text to edit.
