# Related Releases Checklist

A personal checklist tracking the Beatles-related Canadian releases catalogued under Related Discographies (../other/related.html). Four groupings mirror the related page: **Beatles compositions by other artists**, **Beatles playing for other artists**, **other Beatles-related records** (novelty, instrumental cover, fan songs), and the **George Martin discography**. Tick a box to toggle owned/missing; ticking an unconfirmed entry promotes it to confirmed.

The middle column shows the **label / pressing / format detail**. Click any text to edit. Changes auto-save in this browser.

Apple-released items (Mary Hopkin's *Goodbye*, Jackie Lomax, Badfinger, Ronnie Spector, James Taylor's *Carolina In My Mind*, etc.) are intentionally omitted here — they are tracked on the Apple Singles (../apple/applesingles.html) and Apple Albums (../apple/applealbums.html) pages instead. The two EMI promotional CDs (*50 Years Of Music* and *CDPRO6*) are pulled in from the Promotional Records (../other/promos.html) page.

Use *Download edited copy* to take a snapshot in HTML format that you can open in your web browser.

*Tip: click the box to toggle owned/missing. For unconfirmed entries, ticking the box marks them as "confirmed" — they turn blue so newly verified ones stand out. Click any text to edit.*
